TUESDAY, JANUARY 30.

In an interview published in New York on Thursday last, Burt Cochran is reported as saying: "No party ever entered upon a canvass with an easier road to success than that now open to the democracy."

If you can't think of something good to say about your neighbor, a little athletic exercise with your mouth shut will do you good. You will like it when you get through with it. Samson was not the only individual who ever raised Cain with the jaw bone of an ass.

SENATOR TILLER, of Colorado, has recently stated unequivocally that in the coming presidential campaign he will not run with the democrats. He says: "I must be with them, because the paramount issue, as I believe, will be the financial issue, and on that question they are practically in accord with me."

The United States will have a more extensive exhibit at the Paris exposition than any other country, with the exception of France, which will utilize one-half of the total space. The American exhibit will be several times larger than Great Britain's, and as large as Russia's and Germany's combined.

The first issue of the Arizona Blade has reached this office. It is to be a permanent institution of Florence and has for publisher and editor Colonel Thomas F. Weedon, an old and well known resident of the territory. His experience and ability is a guarantee of the success of the Blade by deserving it.

The policy to be advocated by the democracy in relation to the Philippines is stated in advice from Washington to be: "1. The suppression of the insurrection in the Philippine islands. 2. The establishment of a republican form of government there as soon as the insurrection is suppressed. 3. The withdrawal of the army as soon as such government is in operation. 4. The relinquishment of the sovereignty of the United States, but the exercise of a protectorate over the islands in order to prevent foreign interference. 5. The issue of \$20,000,000 in bonds of the Philippine republic to reimburse the United States for the indemnity paid to Spain."

The Topeka Daily Capital is on March 13 to turn over the entire control of its columns for the following six days to Rev. Charles M. Sheldon, a prominent divine and the author of "In His Steps." Rev. Sheldon has advocated the establishment of a paper to be run on the strictest Christian principles, as Rev. Sheldon sees them. His proposals during his six days control of the Topeka Capital to practically demonstrate his ideas as to how a newspaper should be conducted. The pecuniary success of the experiment is already assured, advance orders for both advertising space and copies of the paper have been received upon a large scale. The publishers of the Capital will receive an immense amount of valuable advertising gratuitously, so that both parties to the scheme will be benefited from their different points of view, but that the result will prove the correctness of the position held by Rev. Sheldon as to what should and what should not constitute the contents will remain very far from having been proven to the publishers of newspapers which are conducted on business principles. There are already many journals conducted primarily in the interest of religion and of morality, also others which have consistently refused to permit the publication in their columns of anything looking toward immorality, or even sensationalism. Several of these journals have attained a large circulation and a reasonable degree of pecuniary profit, but it still remains very positively palpable that it is the "money" newspaper, giving so far as possible all the news, sensational and even on occasion verging upon the immoral, that have obtained the largest support, and consequently the largest pecuniary profit.

COPPER IS THE METAL.

The Cochise Copper Mining Company, Bisbee, Arizona.

This company owns a very valuable group of mines situated in Warren mining district, county of Cochise, Arizona, lying immediately east of and adjoining the town of Bisbee, and adjoining the property of the Copper Queen Consolidated Mining company on the north. The latter company has been in operation for about twenty years, and employs about 1,500 men daily in the operation of its mammoth mine and smelters, and as a result has produced copper to over 24,000,000 pounds during the year 1898, and the net proceeds of such production are reported to have been over \$2,000,000, and it has been said by experienced miners who have been under its employ for years, that the Queen mine now has sufficient ore in sight to keep it in constant operation for the next twenty years without further development.

Is it not reasonable to believe that the property of the Cochise company is fully as valuable when it is within such close proximity to such a wonderful mine?

The blasts set off in the underground workings of the Queen property can easily be felt and heard at the shaft of our mine, and oftentimes the concussion has attracted marked attention.

The original owners of these valuable mines are local business men, well and favorably known in Bisbee and surrounding vicinity, who are doing their utmost to make this enterprise a success in every respect. The board of directors are original owners, and are donating their services to the company until such time as the mine will pay dividends. They own the controlling interest in this property, and as a protection to stockholders have placed their entire interest in escrow for a term of one year.

The stock books of our company are now open for subscriptions, and a limited number of shares are offered at twenty-five cts. per share. No application for less than 100 shares will be accepted.

The company reserve the right at any time to advance the price of shares without further notice, or to reject any application for stock at their discretion.

Every cent received from the sale of stock will be expended toward the development of our property and the erection of hoisting works, and all other necessary improvements, and to make our enterprise a success in every particular.

We invite investigators and their experts or their engineers to closely scrutinize our property.

Applications for shares may be made to any of the directors of the company, or to any of our legally authorized representatives:
